ABOUT MY FORMATION

Sep 2014 - Jun 2016

IES Zaidin Vergeles (Granada)

Superior degree where I learned how to program for Android (Java). We also did a few web projects using PHP, HTML and CSS. At the end of this formation I was granted with an Erasmus+ schoolarship that let me improve my english

May - Jun 2019

Test Driven Development for Java - Udemy

Udemy course where I learned the basics of Test Driven Development for Java

Spring Framework 5 - Udemy

Course about Spring Framework 5 to improve my skills in the framework

Mar - May 2021

Ruby on Rails & Node.JS courses - Udemy

Different courses from Udemy regarding Ruby on Rails and NodeJS

Jul 2019

Kotlin Bootcamp - Udacity

Udacity course by Google to learn how to use Kotlin

ABOUT MY EXPERIENCE

Mar 2021 - Present

Nazaries IT (Granada, ESP)

I am currently working for Nazaries IT. Since I started, I have been working in a few different projects for international clients where I have been learning new programming languages like Ruby on Rails, NodeJS and Typescript.

Jun 2020 - Mar 2021

Guud (Madrid, ESP)

During my time at Guud, a company focused on bringing interactive experiences for social media, we worked with Java and Apache Storm creating customized campaigns for different brands on Twitter and other social networks.

Feb 2018 - Oct 2019

ELCA Informatique (Granada, ESP)

I worked for ELCA, a Swiss company with more than 50 years of history, as a Full-Stack developer in a project for four different transport companies in Switzerland. During this time I worked using Java for the Back-end and for the Front-end we use Angular, HTML5 and CSS. In the last months I worked in an internal project creating from scratch a Spring webapp.

Nov 2017 - Jan 2018

Qaracter / BlueIT (Madrid, ESP)

For a short period of time, I worked in BlueIT, a company of the Qaracter group, as a Full-Stack developer in three different international projects for Banco Santander. In these projects I used Springboot and Java for the Back-end and Javascript for the Front-end.

Apr 2017 - Nov 2017

Everis (Madrid, ESP)

I worked for Everis in a project for their client Orange. We were working on the creation of a new plaftorm for their callcenters. In this project I have worked mainly with Java and Springboot. I also have worked with AngularJS for a short period of time helping my Front-end colleagues.

Mar - Jun 2016

Weptun GmbH (Munich, GER)

During my internship in Weptun I worked in a library for an Android application they were creating for a client. For this library I worked with Java and Android Studio and also with some other external libraries needed. I also helped them with their new website (HTML, CSS) and testing some of their apps.

Oct - Nov 2016

Informática Cano (Granada)

My first work experience was in Informatica Cano, a small company in Granada. In this time I did some improvements on their Android app GK2 Android but I also worked with the web version of it. I worked with Java for the Android app and Javascript, HTML and CSS for the web application. I also did the jQuery and jQueryUI course I have mentioned before.
